District, Commodity

- ✓ ☐ Champawat
- ✓ ☐ Dehradun
- ✓ ☐ Garhwal (Pauri)
- ✓ ☐ Haridwar
- ✓ ☐ Nanital
- ✓ ☐ UdhamSinghNagar

The analysis shows that the Haldwani market records the highest commodity sales, while Chakrata has the lowest. Additionally, Bazpur market offers the highest average commodity price.

At the district level, Udham Singh Nagar has the most markets, while Champawat and Garhwal each have only one market.

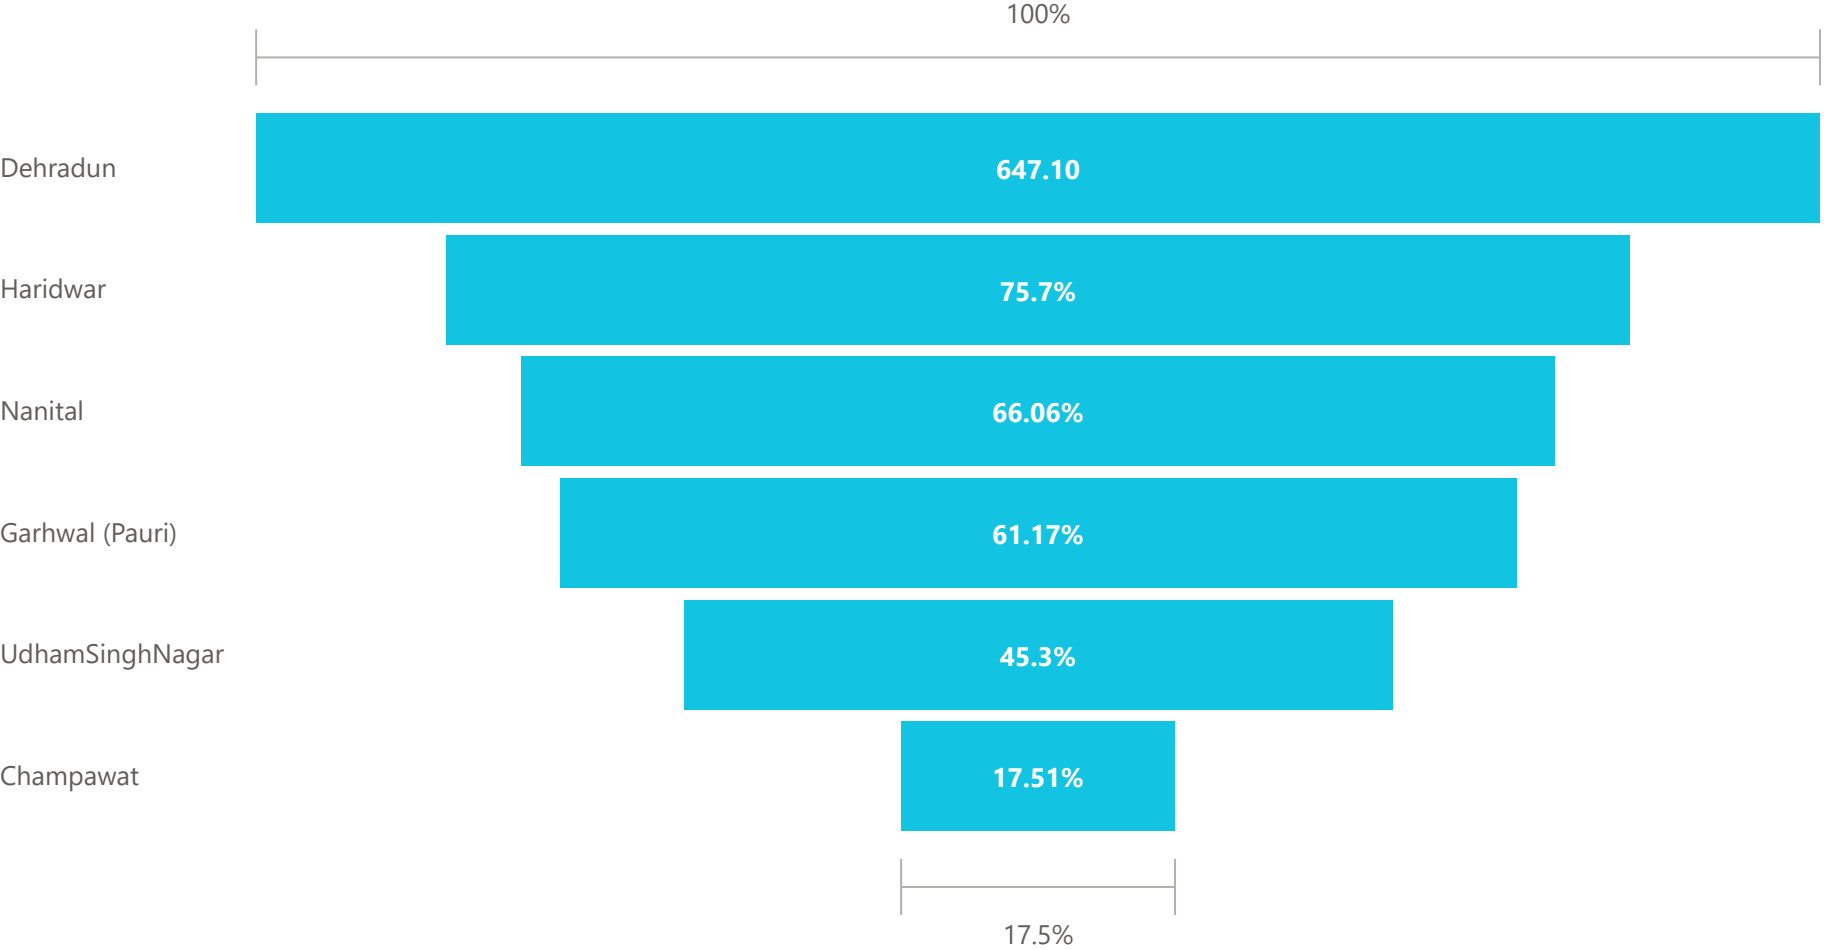

Count of Commodity by District

- Commodity, Grade
- Alsandikai
 - Ambada Seed
 - Amla(Nelli Kai)
 - Apple
 - Apricot(Jardalu/Khumani)
 - Arhar (Tur/Red Gram)(Whole)
 - Arhar Dal(Tur Dal)
 - Ashgourd
 - Bajra(Pearl Millet/Cumbu)
 - Banana
 - Banana - Green

The analysis reveals that Udhampur records the highest commodity count at 115, making it the most active and diverse agricultural market hub in Uttarakhand. In contrast, Champawat shows the lowest commodity count at 53, indicating comparatively limited market activity.

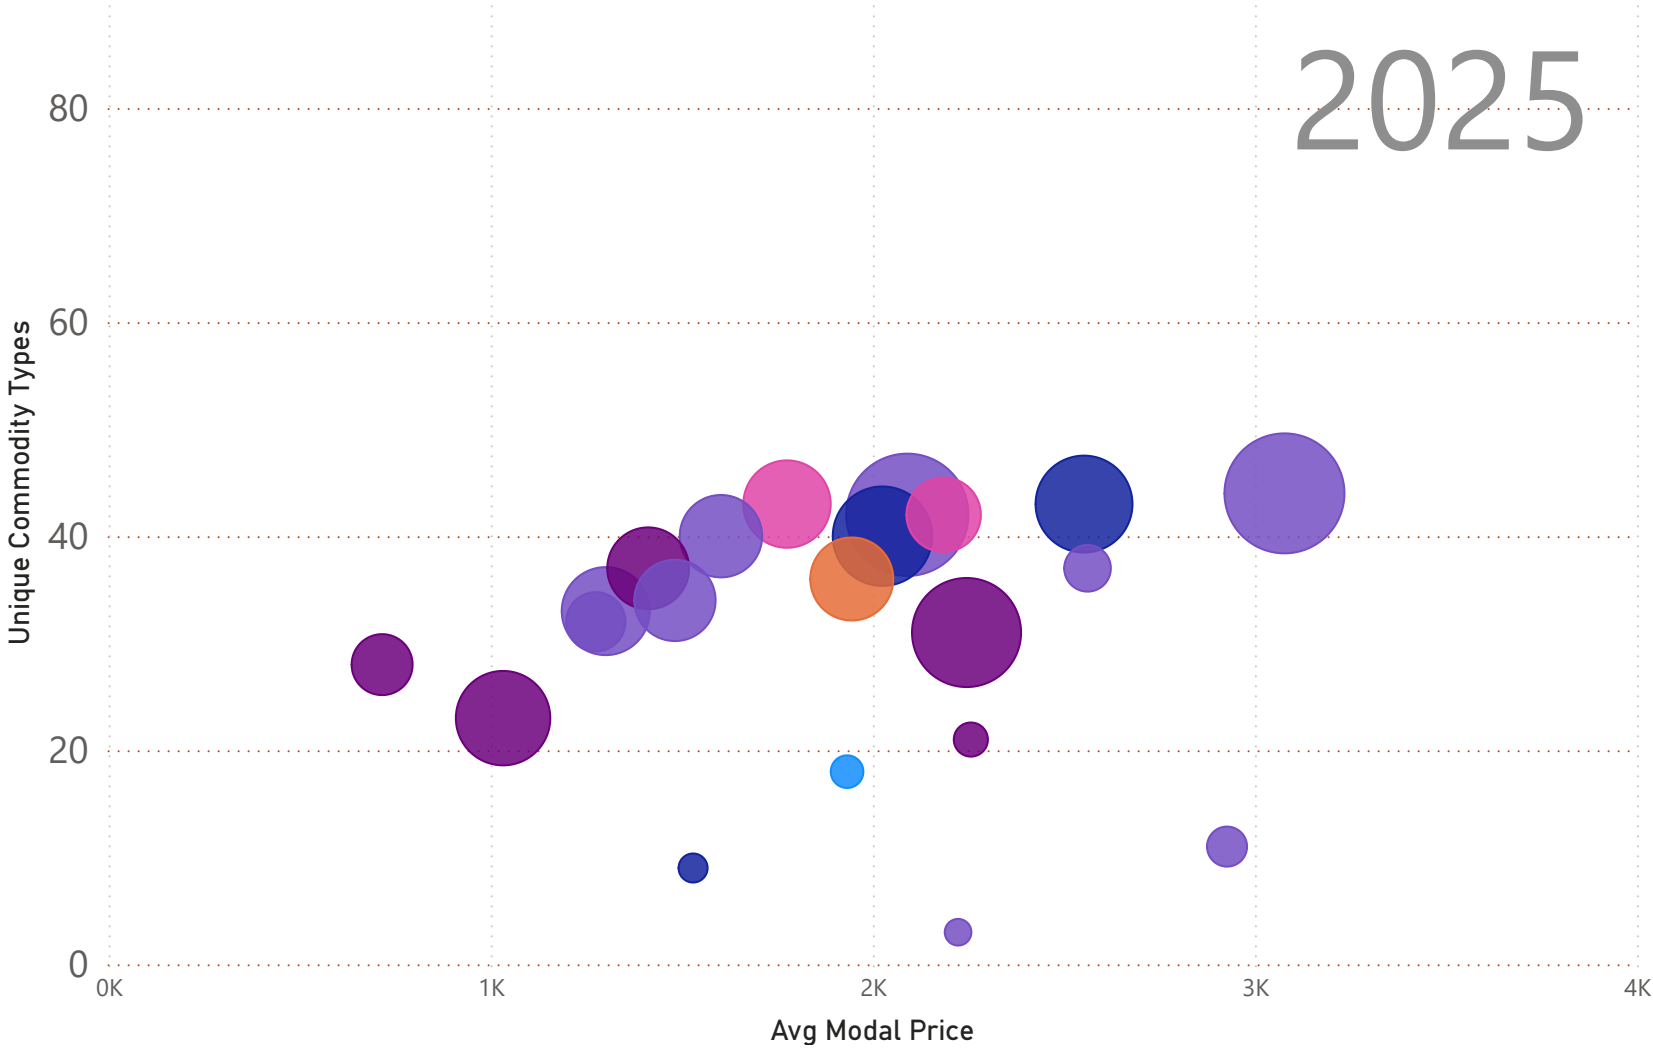

Price Volatility by District

Through analysis we can say Dehradun has the highest price volatility market at ₹647, meaning prices change a lot from day to day where as Champawat, with a volatility market of ₹113, is much more stable and predictable

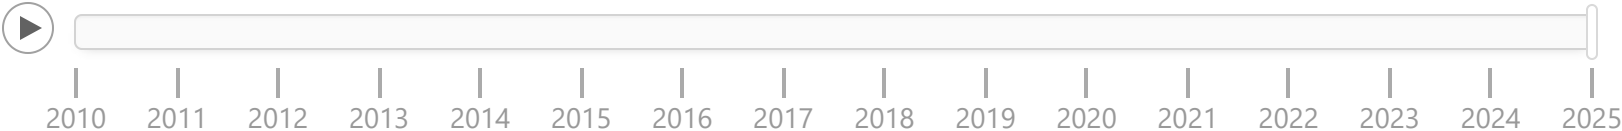

Avg Modal Price, Unique Commodity Types and Market Activity by Market, District and Year

District ● Champawat ● Dehradun ● Garhwal (Pauri) ● Haridwar ● Nanital ● UdhamSinghNagar

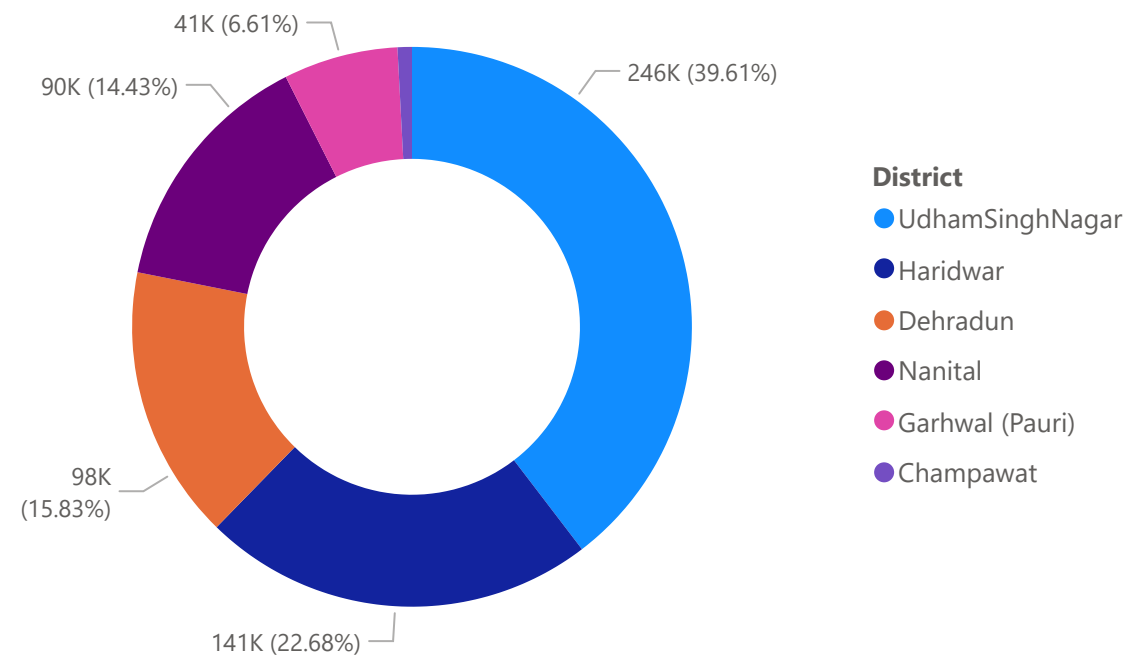

Through this we can identify the most active and competitive markets by comparing overall trading activity, commodity diversity, and average price levels. From this, Dehradun and Haldwani stands out with the highest market activity, while Chakrata shows the lowest, indicating minimal trading participation.

Among all markets, Bazpur records the highest average commodity price, highlighting it as a premium pricing market despite not being the most active
